The Only Global Condensate & Naphtha Forum

# THE 21<sup>st</sup> ANNUAL CONDENSATE & NAPHTHA FORUM

Organised & Managed by:

**9 - 10 November 2017, Penang, Malaysia**  
**State of the Condensate &  
Naphtha Markets: Extracting Value**

An annual "must attend" for serious condensate buyers and sellers, the Condensate & Naphtha Forum brings together experts from the condensate, naphtha and petrochemical markets, who will share their insights and knowledge, through a series of presentations and panel discussions.

Under the theme, "State of the Condensate & Naphtha Markets: Extracting Value", the conference will focus on prospects for enhancing profitability from innovative and new strategies for optimization.

**Penang was the inaugural venue of the Forum when it was first launched in 1996 & returns to Penang after 20 years.**

## FORUM VENUE

## PENANG – A UNESCO WORLD CULTURAL HERITAGE SITE

A fascinating fusion of eastern and western influences, Penang is Malaysia's most tourist-visited destination. The oldest of the British Straits settlements and Malaysia's most beautiful state located on the north eastern corner of the island, the island manages to embrace modernity while retaining its colonial traditions. Due to its well-preserved heritage buildings, Penang's capital, Georgetown, has been accorded a listing as a UNESCO World Cultural Heritage Site. Georgetown's landscape, dominated by Chinese storefronts, also features swanky shopping complexes, refurbished Chinese manors, rowdy pubs and artsy boutiques, cafés and studios. The city is also a popular expat enclave.

### Review the 2016 Event Summary

The Forum's 20th edition, held in Dubai, UAE in November 2016, witnessed an attendance of 130 participants from 21 countries and 27 cities worldwide, highlighting movements in the industry due to the impact of low oil prices, geo-political dynamics and Iran's condensate & splitter projects.

Join over 150 attendees from 20 countries and participate in frank and thought provoking discussions; with an analysis of emerging trends and opportunities
